- A** Auto switch-off with 'on-off' power indicator light
- B** Twin sight windows to indicate water level
- C** Button operated safety locking hinged lid
- D** 360° base with anti-theft fixing and cord tidy

## Cleaning Information

Your Northmace Hotel Safety Kettle should only be cleaned with a soft cloth, slightly moistened with water (moist but NOT wet). Do not use any cleaning products as even in diluted form they may damage the finish. Avoid the areas around the switch and the electrical connections. Remember to completely isolate your kettle from the electricity supply before attempting to clean it. Then polish dry with a dry soft cloth.
